

INTRODUCTION (1/2)

O Grupo de Jovens Profissionais (Young Professionals Group – YPG) Brasil, da Associação Internacional de Resíduos Sólidos (International Solid Waste Association – ISWA), foi fundado em junho de 2016 e é composto atualmente por seis membros. O grupo tem por objetivo principal inserir e promover os jovens profissionais no setor de resíduos, bem como disseminar conhecimentos por meio de eventos e ações, tanto presenciais como virtuais. Em virtude da pandemia, o YPG Brasil se dedicou a realizar workshops on-line com especialistas por meio da websérie “Diálogos YPG Brasil” e a divulgar informações do setor em sua Newsletter “YPG Notícias”, bem como ministrou uma série de palestras para a disciplina eletiva no curso de graduação em Ciências Ambientais da Universidade Federal de São Paulo (UNIFESP) sobre Tratamento e Gestão de Resíduos Sólidos.

Em 2023, o grupo se dedicou ao desenvolvimento interpessoal e técnico dos próprios membros do grupo, reduzindo o foco das redes sociais e webinars. Já no ano de 2024, o grupo planeja retomar eventos presenciais.
