

MEET THE MEMBERS:

Shiza Aslam

Senior Consultant and Practice Manager

”

ISWA Young Professional Group – Pakistan, launched in 2018, is a platform to bring together individuals and organisations from the scientific community, public institutions and companies working in the field of and interested in waste management and resource recovery. ISWA Young Professional Group Pakistan is an offshoot of the International Solid Waste Association the world’s leading waste management association with members in more than 110 countries and a global network of over 40,000 waste management professionals.

Winners announced!

Thank you to for all the fantastic entries to the waste myth blog writing competition! It was really tough to choose the best, but in the end...

Well done to the winner Shanza Naeem! And runner-up Shumile Fatima!

We are very proud to have such smart and active members of our community, connect with them to follow their story!

If you would like to get involved check out our Facebook page.

ISWA YPG Pakistan Blog Competition 2021

ISWA YPG Pakistan challenges bloggers to explore how and which myths in our society are impacting the understanding of individuals and communities which leads to confusion, false information, and discouraging attitude towards waste workers and waste in general. Bloggers are welcome to debunk the local myths and taboos surrounding waste, hence bringing transparency, raising awareness, shedding light on the truth, encouraging positive behavior towards waste.
